## The OEM Equipment Dealers *REDISTRIBUTION CENTER*

## The RETURNS PROGRAM

### RIGHT WAY TO PACK

### WRONG WAY TO PACK

Same packaging rules apply for all truck load and LTL shipments. Please refer to your guidelines and rules!

**Liquids, Flammables** and **ALL HAZARDOUS** items should **NOT** be included in your return.

### 500 pounds NET Weight is the requirement for FREIGHT FREE PICK UP!

Always plan for 600-700 lbs Net Weight so you know you will qualify for the free pick up and your 50% discount.

- Make sure **ALL** parts have a **PART NUMBER**.
- **Nothing** can be **USED, AFTER MARKET, RUSTED, DENTED** or **DAMAGED** and can not be sold as **NEW OEM**.
- If you can **CROSS-REFERENCE** a line, write the OEM Part number of the line we represent. Otherwise, we are unable to sell and advertise those parts for you. Bearings are a good example.

## DEALER INFORMATION

Dealer Number:

---

Password:

---

ALL PARTS need to have a **PART NUMBER!** You can handwrite the number, tag it, or use the casting number.

Any **un-marked** item will be separated and dealership contacted to identify. Any unmarked or unsalable item **will be deducted and scrapped.**

**ONLY** return **NEW OEM** parts. PLEASE **do not** send your used inventory.

**Pack your pallets FULL!** Maximize space and fit **all that you can** into 1 pallet. Most 3x4 CB Pallets **can hold 400-500 pounds.**

You **DO NOT have to send a list** of the parts you are returning, nor do we have to pre-approve anything. We just use the part number you have marked and log it into inventory. So PLEASE make sure it is the CORRECT part number or we BOTH lose a possible sale.

We take anything from **CURRENT to DISCONTINUED**. That means all of your **open packages**, items **not** in the original package, **ANY** dollar amount, and the packages do **not** have to **include the original quantities**.

To get **over 500lbs** for the **50% discount**, remember to include **disks, hubs, blades, gasket sets, chains, cam shafts, housings and bearings**.

**EACH pallet should be marked with the following:**

- Dealership Name and Address
- All other tags should be removed
- If sending more than 1 pallet, mark on the outside  
1 of 3, 2 of 3, 3 of 3

YES! You can mix lines in the same pallet. Just make sure **each line is in its own box**. Then place in a Stock Order size pallet box or wood crate.

It is HIGHLY RECOMMENDED that you **DO NOT ship small boxes on a pallet and shrink-wrap**.
